Information notice on personal data processing

I declare I have read the Information notice on personal data processing.

- Dato obbligatorio / Mandatory field

Being aware of the Risks underlined in the above information, I give my consent to the possible transfer of Personal Data to Recipients in Third Countries for the purposes of the Call for Projects.

- Dato obbligatorio / Mandatory field

I hereby authorise IFAB's members to have access (subject to the latter's request) to the information submitted for this Call for Projects, being aware of IFAB's mission to promote the development of technologies and innovative scientific methods.

Declarations

In case of funding of this proposal, I accept the following contract template.

- Dato obbligatorio / Mandatory field

I will sign this form as

- legal representative
 principal investigator

Please note, for those who digitally sign the application, we point out that the holder of the card must coincide with the holder of the account with which the application is submitted. The system will check the correspondence of fiscal code of the card with that of the account.

Executive Summary

Summarize key themes, aims and methods of the project. (maximum 1000 characters, spaces included)

- Mandatory field

Background and project rationale

Explore the existing knowledge and background in which your project falls in. Describe the research questions that will be addressed, the gap[s] the project intends to fill and the societal need[s] that it will fulfil. Illustrate in which way[s] this project represents a significant step forward considering the current state of art in the specific field of study. (maximum 2500 characters, spaces included)

- Mandatory field

Relevance to the call

Provide information about project's aims and expected results exploring how these fit with objectives and strategy as stated in the Call. (maximum 1800 characters, spaces included)

- Mandatory field

Experimental plan

Describe

- i) actions planned (WPs and tasks);
- ii) datasets and database (type of data and how they will be collected, database structure and design);
- iii) analytical and statistical methods and techniques;
- iv) expected outputs;
- v) potential pitfalls/caveats and alternative approaches to overcome them;
- vi) role of each partner (if any);
- vii) milestones and deliverables,
- viii) timeline (Gantt chart).

Describe also modalities for sharing datasets, metadata and data originated by the project. Illustrate how issues such as interoperability and potential integration with existing resources will be addressed. Illustrate how legal and ethical issues related to data management are taken into consideration (privacy protection, data confidentiality and ethical use of data). (maximum 5000 characters, spaces included, excluded figures, tables and pictures)

Project strengths

Project Originality and Innovation

Describe the innovation of the methods and techniques employed. Define the project's contribution to the theoretical debate in the specific field of study. (maximum 500 characters, spaces included)

- Mandatory field

Impact

Describe how the project will improve the understanding of the topics related to the specific field of study and the impact in terms of industrial and social developments, as well as policy making. In particular, describe the project's result in terms of start-up or industrial applications potential development. (maximum 2000 characters, spaces included)

- Mandatory field

Project organization

Organizations and facilities

Describe the organizations involved in the project and illustrate the available tools, facilities and infrastructures. (maximum 1000 characters per organization, spaces included)

- Mandatory field

Young researchers and gender equality

Describe actions aimed to involve young researchers and guarantee gender balance. (maximum 1000 characters, spaces included)

- Mandatory field

Research team

Provide, for each member of the research team (permanent and temporary), including PIs, the following information

Please indicate all members of the research team and, where available, their CV information, list of publications and list of financed projects.

1

Surname

Name

Organization position

Education and training (Maximum 1000 characters, spaces included)

Professional experience * (Mandatory field - Maximum 2000 characters, spaces included)

Scientific publications and Congress or other oral Communications. (Please, indicate the total number of publications and h-index. Please list a selection of the peer-reviewed publications more relevant to the project.) (Maximum 5 indexed publications. Maximum 4000 characters, spaces included)

Grants. (Whether it is the case, please indicate title, duration and amount of the grants achieved and those still running.) (Maximum 4000 characters, spaces included)

Role in the project * (Mandatory field)

Type of contract * (Mandatory field)

- permanent
 temporary

Number of months for this project (Mandatory field)

Monthly cost * (Mandatory field)
